

JERWIN LOUISE PERIA

Full Stack Developer

Batangas, Philippines | jerwinperiait@gmail.com | +63 9930614298 | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Recent BS Information Technology graduate with internship experience in full-stack, frontend, and backend development. Skilled in building scalable web applications using React, Next.js, Node.js, PostgreSQL, and modern development practices. Experienced throughout the Software Development Life Cycle (SDLC), including UI development, API design, automated testing, security testing, and technical documentation. Passionate about creating reliable software solutions and continuously learning emerging technologies, including AI-powered applications.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, HTML5, CSS3
Frontend: React.js, Next.js, React Native, Tailwind CSS, Bootstrap, Shadcn/UI
Backend Frameworks & Runtime: Node.js, Express.js, Laravel, FastAPI
Databases: PostgreSQL, MySQL, MongoDB, Supabase
Cloud & Deployment: Docker, Vercel, AWS, Hostinger
Testing & Security: Playwright, Pytest, OWASP ZAP, Postman
CMS: WordPress, Shopify
Developer Tools: Git, GitHub, GitHub Actions, Jira, Trello, Figma, VS Code, Cursor AI, GitHub Copilot, Claude, ChatGPT
Core Competencies: Full Stack Development, Frontend Development, Backend Development, REST API Development, Responsive Web Design, API Integration, Authentication & Authorization, Database Design, System Architecture, Technical Documentation, Test Automation, AI Integration, Agile Development, SDLC

WORK EXPERIENCE

Center for Artificial Intelligence and Smart Technologies (CAIST), Batangas State University *February 2026 to May 2026*
Full Stack Developer / Frontend Development Lead, On-site, Internship

- Led frontend development for the student-facing portal of a multi-team enterprise system delivering four integrated modules, contributing across the full Software Development Life Cycle (SDLC) to ensure timely project delivery.
- Designed system architecture diagrams, improved responsive user interfaces, and produced technical documentation, enhancing development collaboration and end-user experience.
- Developed **40+ manual test cases** and automated regression testing with **40+ Playwright end-to-end tests** and **5 Pytest API tests**, improving software quality while reducing manual testing effort.
- Conducted security assessments using **OWASP ZAP**, identifying and validating a high-severity vulnerability prior to production deployment, strengthening application security.
- Proposed and presented an **AI chatbot enhancement** that was selected over competing proposals, contributing to the project's innovation roadmap through model training and seamless portal integration.

Tech Executive Labs I.T. Solutions *February 2025 to April 2025*
Backend Developer, Remote, Internship

- Designed and developed a RESTful API using Node.js, structuring clean and scalable endpoints to support core application functionality.
- Implemented middleware layers to handle request processing, validation, and error management across API routes.
- Integrated security measures into the API, enforcing authentication and access controls to protect sensitive data and endpoints.

PROJECTS

ProHealth Diagnostic Laboratory Landing Page (2026)

- Developed an SEO-optimized business website to strengthen the laboratory's online presence and improve patient access to diagnostic services.
- Integrated Google Maps, click-to-call, and Facebook contact actions to streamline patient inquiries and location navigation.
- Designed a responsive, mobile-first user experience while optimizing metadata, semantic HTML, and page performance for improved search engine visibility.

Geospatial Small and Medium Enterprises (2025)

- Developed a web-based GIS dashboard for academic researchers to manage, visualize, and analyze SME and fintech adoption data across Batangas.
- Implemented Leaflet.js and PostGIS to deliver interactive maps, municipality boundaries, and heatmaps visualizing SME density and fintech utilization at the municipal level.
- Built geospatial dashboards and data visualization tools to support research-driven insights through a scalable, responsive web application.

EDUCATION

BS Information Technology Major in Service Management *August 2022 to July 2026*
Batangas State University TNEU Lipa Campus

- Cum Laude
- Dean's Lister

CERTIFICATIONS & SEMINARS

The Complete Full-Stack Web Development Bootcamp | *Issued by Udemy, January 2026*
Build with AI Manila 2026: Beyond the Prompt | *Attendee, Google Developer Groups, April 2026*
Building a Connected Tomorrow: IOT Innovations and Beyond | *Attendee, BITCON, April 2025*
Next.js App Router Fundamentals | *Issued by Vercel, May 2025*
Introduction to Red Hat OpenShift AI (AI262F - RHA) - Ver. 2.13 | *Issued by Red Hat, July 2025*
Red Hat Application Development I: Programming in Java EE (AD183 - RHA) - Ver. 7.0 | *Issued by Red Hat, July 2025*
